**When picking the logo, please indicate
the name of the page on top bar
(in white print)**

EXAMPLE

IMAGWORKS: LOGO_A_E:

and the logo name below the design.

***You can send your own art creation. Please see
the next page. Good art yields great graphics on
your items.***

Computer Graphics:

We use Mac and PC's. Software programs Adobe Photoshop CS, and Adobe Illustrator 10 as our primary graphics software.

If you are sending us photographs or computer art files that contain photo-like images, we get very good results with .tif, .psd (Adobe Photoshop) or **high resolution** .jpeg files (300dpi). JPG and .psd files give us the best results for creating photo t-shirts or computer art t-shirts. If you are scanning images to send to us, scan at **300 dpi (photo quality)**, this will produce excellent results.

We prefer vector type files. These are files that have been created in programs like Adobe Illustrator. Bitmap files, e.g.: Photoshop .psd or .tiff files saved at 300 dpi or greater should also produce an acceptable result.

Our programs of choice are Adobe Illustrator and Photoshop . If you send us Illustrator .eps files, please convert all text files to outlines prior to sending to us. This can be done by doing the following: Once you have completed your layout, select all text items and click on "create outlines" from the Type menu. Then save and e-mail us your file. It is very important that you do this, as we may not have your fonts on any of our computers.

We also get excellent results with Illustrator EPS (Adobe Illustrator) files or CorelDraw files that have been "exported" as .ai files. To send us .ai files that have been created as .cdr files in CorelDraw, follow the "create outlines" procedure as outlined above and then use the "EXPORT" command to save your file in .ai format or .eps format.

Here are the type of files that we can accept: *(We use PC's, and Mac's.)*

Ideal Files:

- Adobe Illustrator EPS, Windows Metafile .wmf , Photoshop EPS or .psd , Adobe .pdf , Tiff files

Ideally, the art will be saved precisely sized to the imprint area specifications of the item that will be imprinted. Black and white line art should be scanned at least at 300 d.p.i. Line art drawings are best if sent to us in vector format, i.e. CorelDraw or Adobe Illustrator, or Adobe .pdf formats.

Artwork sent by fax is generally poor quality and not usable.
Send via email or disk.

We also accept hand drawn artwork, through scanning, photocopying, and traditional paste-up methods. Remember, **if you have any questions regarding artwork, please send us an e-mail to us. We'll be happy to help you.**
